

Targeted Sports program- Dance

## TARGETED SPORTS PROGRAM- DANCE

### The Program

The TSP- Dance is designed to contribute to the development of identified aspiring young dancers in various dance styles (eg. Contemporary, Ballet, Jazz/Hip Hop), by providing them with a variety of style specific learning experiences and strength/conditioning throughout the year.

In order to contribute to the development of these aspiring young dancers, TSP- Dance athletes will-

1. Participate in KHS weekly sport every Wednesday from 1.15- 3.15pm. This will help develop them in strength/conditioning and choreography, improving fundamental skills, knowledge and fitness. Before school/Recess rehearsal may be needed for Ballet Company and addition strength/stretch class, TBA.
2. Be provided with a variety of opportunities to compete and represent KHS (**refer to performance opportunities outlined below**).
3. Have access to high quality teaching and development opportunities through guest choreographers/workshops/performance.
4. Develop their personal understanding and knowledge of dance training and components that build strong, healthy dancers.
