## **ASSESSMENT AND REPORTING POLICY**

### **Stage 4 (Years 7 and 8)**

Assessment is continuous throughout each semester. This means that student progress is monitored on a regular basis using a variety of tasks and assessment methods in each course including tests, regular marking of books, assignment work, practical work, spelling tests and class contributions.

Such a variety of assessment types gives students a chance to demonstrate a wide variety of skills and also ensures that each student will be recognised and commended for talents or skills at which he or she is adept.

In order to allow students to display their full skills and knowledge, all tasks used for assessment purposes should have a published marking criteria explaining to students how the task will be assessed prior to their attempting the task.

A WAVE report will be provided to parent twice a term that summarises student's attitude and application to learning.

A detailed School Progress Report is forwarded to parents twice a year, one at the conclusion of Semester 1 and one at the conclusion of Semester II.

The detailed Progress Report will include information on how they have performed relative to the course outcomes, how they have performed relative to other students, a personal profile, marks and teacher's comments.

The detailed Progress Report also includes a profile of subject skills and a record of how well a student has achieved or maintained those skills. The subject teacher makes a meaningful statement on the individual student's progress and may indicate matters of concern which should invite a response from parents.

## **ASSESSMENT PROCEDURES**

### **Examination Attendance**

- Examinations are compulsory assessment tasks and, in all but exceptional circumstances, should be completed on the day timetabled. Examination timetables will be made available at least one week in advance;
- Students who know in advance they have a legitimate reason (including representing the school, unavoidable medical issues or unforeseen family circumstances) for not attending an examination must see the Head Teacher of the examination being missed to reschedule the examination;
- Any absence from an examination should be explained with a written explanation from a parent/care provider. This letter should be submitted to the class teacher on the next day of attendance so that a time for the examination can be rescheduled;
- Where no note is supplied or the reason for the absence is unacceptable (such as misreading the examination timetable, truancy or attending non-school events) a zero will be awarded for the examination missed;
- In exceptional circumstances where a legitimate absence extends for a significant period of time an estimate for the examination may be considered.

## Examination Rules

- Rules governing the conduct of an examination will be attached to the examination timetable (see next page). These rules will be explained prior to the examination period;

- Students who hand in assessment tasks late should not be advantaged by the extra time they have available to them. Therefore late submissions will incur the following penalties:

  - 2 days after the due date= deduct 20% of the marks awarded
  - 3 day after the due date= deduct 30% of the marks awarded
