ASSESSMENT AND REPORTING POLICY

Stage 5 (Years 9 and 10)

Assessment is continuous throughout each semester. This means that student progress is monitored on a regular basis using a variety of tasks and assessment methods in each course including tests, regular marking of books, assignment work, practical work, spelling and class contributions.

Such a variety of assessment types gives students a chance to demonstrate a wide variety of skills and also ensures that each student will be recognised and commended for talents or skills at which he or she is adept.

The assessment schedule and the NSW Education Standards Authority (NESA) requirements for the satisfactory completion of Stage 5 are available on the Kingscliff High School website. Students will be informed of any alterations to the policy or schedule prior to the alteration to ensure no student is disadvantaged by the alteration.

In order to allow students to display their full skills and knowledge, all tasks used for assessment purposes should have a published marking criteria explaining to students how the task will be assessed prior to their attempting the task.

Record of School Achievement:

For further information, please refer to the NESA website:

<http://educationstandards.nsw.edu.au/wps/portal/nesa/home>

To qualify for the award of The Record of School Achievement (RoSA), a student must have:

- Attended a government school, or a recognised non-government school
- Undertaken and completed courses of study that satisfy the Board's curriculum on assessment requirements for the RoSA.
- Complied with any other regulations or requirements (such as attendance) imposed by the Department of Education and Communities or NESA.
- Completed Year 10.

Until a student has qualified for the RoSA, that is, they have successfully met all four (4) criteria outlined above, they will **not move into Stage 6** courses. Students may be required to repeat Year 10 to complete the criteria.

Key Facts About the RoSA

- **Who will get it?**
Students will need to have completed the mandatory requirements for Stage 5 (Year 10) to be eligible for a RoSA. Those eligible students who choose to leave school prior to receiving their HSC, will receive a RoSA.
- **When will they get it?**
A RoSA will only be provided to those eligible students who choose to leave school prior to receiving their HSC.

- **What will it show?**

A RoSA will show grades for all the courses a student has completed up until the point they leave school- including those completed in Year 10, Year 11 or even Year 12.

- **Why give grades?**

Grading is a way of showing a student's level of achievement in a course in a way that can be compared fairly between individual students.

Giving grades in courses completed after Year 10 will also mean that every student gets acknowledgement for all the work they have done, right up to the time they leave school.

- **How will students get grades?**

A to E grades are currently awarded for courses completed in Year 10. That same system will now be extended to include courses completed after Year 10 as well (up to the time a student receives an HSC result).

Students will be required to submit assessment tasks as delivered by their schools. Teachers will then use marks from those assessments to allocate a grade for each student at the end of the course. Teachers will submit those grades to NESAs for inclusion on the RoSA if required.

- **How can we be sure that grades are awarded consistently?**

It is important for students, parents and employers that grades are awarded consistently. Teachers already have a strong level of professional judgement, and NESAs will support that further by providing workshops and online resources, including student work samples.

- **Why offer literacy/numeracy tests?**

When the RoSA is fully implemented, students will be offered the opportunity to complete on-line literacy and numeracy tests, with particular emphasis on work readiness.

Parents and employers in particular are increasingly interested in having a clear affirmation of a student's fundamental levels of literacy and numeracy. This measure will help provide valuable information to an employer when they are considering job candidates who have not completed their HSC.

The literacy/numeracy tests will also help students, parents and teachers determine if a student needs particular support in an area, or form the basis of further discussion about whether a student is ready to leave school.

- **How will literacy/numeracy tests be developed and delivered?**

NESA will offer optional literacy/numeracy tests. The tests will be delivered online and information will be provided to schools about supervision of the tests.

Schools will be asked to provide two 'windows' each school year in which students could sit the tests. Students will only be able to sit the test one time in each window, however they can sit the test again in a new window should they decide to remain at school. If a student does sit the test more than once, it will be the results from their most recent test that will be applicable when they leave school.

- **Why record extra-curricular activities?**

Increasingly, parents, students, employers and providers of further education are looking at more than a student's level of academic attainment. This information can help form a more comprehensive picture of a student's interests, commitments and achievements in areas other than school.

SATISFACTORY COURSE COMPLETION REQUIREMENTS:

1. How do I satisfactorily complete a course?

You will satisfactorily complete a course if there is sufficient evidence that you have:

- followed the course developed or endorsed by NESAs
- applied yourself with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- achieved some or all of the course outcomes

This means that it is your responsibility to:

- attend lessons in that course for the required number of hours, bringing the correct equipment and books;
- make a genuine effort in all class activities including assignments and homework;
- make a serious attempt at all your assessment tasks.

If the Principal determines that you are in danger of not completing a course satisfactorily, you will be warned in writing in time for you to correct the problem and satisfactorily complete the course.

2. Course Requirements during Years 7-10

You will have needed to have studied English, Mathematics, Science, History (Civics and Citizenship), Geography (Civics and Citizenship), Creative Arts (100 hours Visual Arts and 100 hours Music), Technological and Applied Studies (200 hours Design and Technology) and a minimum of 300 hours Personal Development, Health and Physical Education (PDHPE).

3. Attendance Requirements

You must have an approved pattern of attendance. Principals may grant students leave for legitimate reasons such as illness, physical injury or holidays. Any extensive period of unapproved absence may result in unsatisfactory completion of a course(s) and may impact on your eligibility for the award of the School Certificate.

4. The 'N' Determination

If you are deemed not to have completed a course, you will receive an 'N' determination. The course will be listed as 'Not Completed'. An 'N' Award in one of the elective subjects means that the elective subject will not appear on your RoSA. An 'N' Award in any of your "core" subjects means that you will NOT qualify for a RoSA in that year.

You have the right to appeal against an 'N' determination. The appropriate form can be obtained from your Principal. Appeals against 'N' determinations should be lodged with your principal, who will advise you of the date by which your appeal must be submitted. If you are dissatisfied with the result of the school review of your appeal, you should advise the Principal that you wish the appeal to be referred to NESAs.

ASSESSMENT PROCEDURES YEAR 9

Examination Attendance

- Examinations are compulsory assessment tasks and, in all but exceptional circumstances, should be completed on the day timetabled. Examination timetables will be made available at least one week in advance;
- Students who know in advance they have a legitimate reason (including representing the school, unavoidable medical issues or unforeseen family circumstances) for not attending an exam must see the Head Teacher of the exam being missed to reschedule the exam;
- Any absence from an exam should be explained with a medical certificate or written explanation from a parent/care provider. This letter should be submitted to the class teacher on the next day of attendance so that a time for the exam can be rescheduled;
- Where no note is supplied or the reason for the absence is unacceptable (such as misreading the exam timetable, truancy or attending non-school events) a zero will be awarded for the examination missed;
- In exceptional circumstances where a legitimate absence extends for a significant period of time an estimate for the exam may be considered.

Examination Rules

- Rules governing the conduct of an examination will be attached to the examination timetable. These rules will be explained prior to the examination period;
- Any conduct that is deemed to disturb the orderly conduct of an exam will result in a deduction of 20% of marks awarded for the first personal warning. Any further infringements and a zero will be awarded for that examination;
- No personal warnings will be issued for cheating or using mobile/data devices. In such cases a zero will be awarded for that examination.

Assessment Tasks

- Students will be given a minimum of one week's notice for an assessment task.
- Students who know in advance they have a legitimate reason (including representing the school, unavoidable medical issues or unforeseen family circumstances) for not attending a class assessment task or not being able to meet an assessment deadline must see the Head Teacher of the subject to negotiate a new due date;
- Students who hand in assessment tasks late should not be advantaged by the extra time they have available to them. Therefore late submissions will incur the following penalties:

| | |
|---------------------------|-----------------------------------|
| 1 day after the due date | = deduct 10% of the marks awarded |
| 2 days after the due date | = deduct 20% of the marks awarded |
| 3 day after the due date | = deduct 30% of the marks awarded |
| 4 days after the due date | = deduct 40% of the marks awarded |
| 5 days after the due date | = deduct 50% of the marks awarded |

Work not handed in or handed in after 5 days will receive zero for that task.

- Any absence on the day an assessment task is due should be explained with a medical certificate or written explanation from a parent/care provider. This letter should be submitted to the class teacher on the next day of attendance along with the task.
- In exceptional circumstances where a legitimate absence extends for a significant period of time an extension of the due date can be negotiated with the Head Teacher of that faculty.
